WG2 : Type-theoretic Tools

A. Mahboubi

Disclaimer

Disclaimer: this is a very partial picture.

Tools

Seniors:

- Coq, Agda, Dedukti, Lean, . . .

Tools

Seniors:

- Coq, Agda, Dedukti, Lean, . . .
- Easycrypt

Tools

Seniors:

- Coq, Agda, Dedukti, Lean, . . .
- Easycrypt
- Idris but also OCaml, Rust, Haskell. . .

Tools

Rmk: activity on languages is less visible in EUTypes events.

Libraries

- Logipedia
- Lean's mathlib
- Unimath
- Mathcomp/analysis
- MetaCoq
- ?

Dissemination

`https://eutypes.cs.ru.nl/Tools`

- How to best advertize/report the activity on system development?
- How to classify tools/language/systems/libraries?
